

C-Wire Adapter

Power Connected Thermostats With
The C-Wire Adapter.

C-Wire Adapter

Quickly and easily power WiFi enabled connected thermostats

Today's homeowners want a connected home experience. Resideo is making it easier than ever to transition your customers from a non-connected to a connected thermostat. The C-Wire Adapter allows you to easily add a wire at the equipment during WiFi thermostat installations when a common wire is required – without having to run new wires.

Application Friendly

- Use for WiFi, 24v thermostats when a common wire is needed but not present
- Works with most WiFi thermostats, including all Resideo connected models
- Easily meet the growing demand for connected solutions in retrofit applications

Cut Installation Time

- Wire is included, so there's no need to run new wire to the equipment
- No tools needed
- Easy push terminals with clear labeling and preconfigured wire leads
- Simple adhesive mount

Clean Design

- Permanently closed cover conceals internal components and reduces noise
- Aesthetically pleasing look
